MIDHUN BABU B

Unity Game Developer

+91 7560855307 midhun123tvm@gmail.com LinkedIn GitHub

Profile Summary

Unity Game Developer with nearly 2 years of experience building 2D and 3D games across mobile and WebGL. Specializing in reliable multiplayer systems and performance optimization so games run smoothly on a wide range of devices.

Technical Skills

Programming
C#, OOP, Data Structures & Algorithms

Performance and Optimization
Unity Profiler, Object Pooling, Occlusion Culling, Addressables, Sprite Atlas

Version Control
Git, GitHub, Perforce

Unity Skill Set
2D/3D Game Development, Multiplayer, AR/VR, URP, HDRP, Cinemachine, Timeline, Animator

Networking & Multiplayer
Photon PUN, Photon Fusion, Mirror

Other Engines
Terra Studio, Roblox

Projects

Tokyo Ludo — Unity, Multiplayer Board Game , *Carina Softlabs Inc.*
- Led the migration of the multiplayer architecture from Photon PUN (Master Client) to Photon Fusion Shared Mode, redesigning networked state synchronization, session management, and reconnection handling.
- Built the full game UI and gameplay flow, including turn management and state transitions.
- Fixed core multiplayer bugs, improving session stability.

Warvox — Unity, MMORPG , *Carina Softlabs Inc.*
- Built the Governor and Castle PvP system, including contract creation, defense terms, and validation.
- Implemented zone-based dungeon instancing and a proximity-based voice chat system.
- Worked on weapon skill balancing by adjusting gameplay values and integrating VFX/SFX.

Cheezy Wheelz — Unity, 3D Open-World Delivery, *Carina Softlabs Inc.*
- Built the core gameplay loop: a time-based food delivery system where delivery time and food temperature determine rewards.
- Extended a third-party motorcycle physics package with wheelie and drift mechanics.
- Developed AI pedestrian and traffic systems with intersection detection and dynamic path variation.
- Designed a real-time GPS and minimap navigation system for delivery routes.
- Optimized mobile performance using object pooling, Addressables, and dynamic NavMesh management.

Professional Experience

Unity Game Developer, *Carina Softlabs Inc* 11/2024 – 08/2026
Indore, India

Courses

Unity Game Development, *Brototype* 2023 – 2024
Trivandrum , India

Education

Higher Secondary (Commerce), *G.H.S.S. Kilimanoor* 2021 – 2023
Trivandrum , India
